

Husqvarna Lawn Tractors fitted with K46CR Auto Diff Lock Transmission as fitted to models LTH2142D, YTH2242TDF & YTH2648TDF

SAFETY RETROFIT NOTICE

Husqvarna Lawn Tractors fitted with K46CR Transmission on models LTH2142D, YTH2242TDF & YTH2648TDF

Husqvarna wishes to advise owners of a safety issue potentially affecting the Husqvarna Lawn Tractor Models listed above with a production date from 1 May 2010.

In some circumstances, the Tuff Torq transmission fitted to the above models may experience an intermittent drive failure which may cause a loss of braking ability.

Consumers can determine whether their Lawn Tractor is affected by checking the serial number. The serial number is located on the ID plate located under the seat. Affected serial numbers start with 050110A00001 to 123110A99999. Photographs of where the serial number is located, is available via the "Important Tractor Safety Notice" link on the www.husqvarna.com.au home page.

Important: Customers must cease using these Lawn Tractors immediately as they may experience a loss of braking ability.

Customers are requested to contact their authorised Husqvarna specialist servicing dealer for information about the choice of options available to remedy this safety issue.

Husqvarna apologises for any inconvenience caused, however safety is our top priority and will not be compromised.

For additional information contact your local Husqvarna dealer or Husqvarna Australia Pty Ltd on technical.service@husqvarna.com.au, or 1800 802 831.

See www.recalls.gov.au for Australian product recall information.

SERIAL NUMBER IDENTIFICATION:

The serial number is on the ID plate located underneath the seat of the tractor. Only the above models with serial number production date beginning with month (MM); 05, 06, 07, 08, 09, 10, 11 or 12 are in the affected batch.
