Olive Harvesting with highest efficiency and less effort.

**Large hook opening**
The large hook opening leads to higher productivity and is turnable for ease of use.

**Environmental care**
Our machines are environmentally well adapted. Patented X-TORQ® engines provide excellent performance with low fuel consumption and low exhaust emission.

**LowVib transmission**
The gear box reduces vibration and provides superior performance.

**Anti-vibration**
Heavy-duty dampening muff absorbs vibration, sparing the user’s arms and hands.

**Husqvarna 353O4x.**

Powerful and efficient olive harvester equipped with raw powered X-TORQ® engine for highest productivity. Up to 20% less fuel consumption leads to more power out of less fuel and less refuelings as a result. The Husqvarna 353O4x provide long reach and the best ergonomics with lowest vibration levels in the segment. Comfortable harness included.

45.2 cm³, 2.1 kW/2.82 hp(I), 11.7 kg, length 2280 mm, hook opening 32 mm

---

**Husqvarna 343O3.**

Husqvarna 343O3 is designed for tasks in small sized trees with olives and nuts. Equipped with the fuel efficient X-TORQ® engine which leads to less refuelings and more power out of less fuel. Low weight and compact design makes this machine flexible and easy to operate. Equipped with a comfortable harness.

45.2 cm³, 2.1 kW/2.82 hp(I), 11.7 kg, length 2280 mm, hook opening 32 mm

---

**Husqvarna 353O4.**

Powerful and efficient olive harvester equipped with higher powered X-TORQ® engine for highest productivity. Up to 20% less fuel consumption leads to more power out of less fuel and less refuelings as a result. The Husqvarna 353O4 provide long reach in higher trees. Comfortable harness included.

50.6 cm³, 2.4 kW/3.22 hp(I), 15.7 kg, length 2690 mm, hook opening 42 mm

---

**Ideal Accessories for Harvesting and Tree Care.**

**LOPPER FUNCTIONAL**

Ultra light powerful and modern. For everyone who appreciate an easy clean cut and optimum ergonomics. Patented geared transmission and cutting close to the joint for 38% increased cutting power. (non-stick coated blades, extra light)

- Functional Art.No. 525 59 77-01 plastic handles
- Technical Art.No. 525 59 77-02 aluminium handles

**FOLDABLE PRUNING SAW.**

Lightweight pruning saw in high quality steel with an ergonomic handle for high comfort. The blade locks in place and folds away safely when not used. Cuts on the pull stroke. Ideal for cutting timber, trimming olive- or fruit tree branches and general pruning.

- Art.No. 544 08 02-01 (180 mm); 544 08 02-02 (220 mm); 544 08 02-03 (240 mm); 544 08 02-04 (300 mm)
Husqvarna 339 XP®.
The 339 XP® is the very light and still powerful choice for olive- and fruit tree pruning. XP® chainsaws fully loaded with features such as Air Injection, Smart Start and LowVib. They combine a low weight, very good ergonomics and have an extremely good maneuverability when cutting and clearing branches.
39.0 cm³, 1.8 kW/2.4 hp, 4.0 kg, chain pitch .325", rec. bar length 13–18”

Husqvarna 346 XP® TrioBrake™.
The 346 XP® combines high power and efficiency thanks to our XP® engine technology. It is suitable for small tree-care but also feels very much at home with limbing and felling bigger trees.
50.1 cm³, 2.7 kW/3.7 hp, 5.0 kg, chain pitch .325”, rec. bar length 13-20”

TrioBrake™ from Husqvarna.
Will it become another industry standard?

TrioBrake allows the chain brake to be activated either automatically by the normal inertia release mechanism or mechanically by your left or right hand. Increased safety features with this 3rd way to activate the chain brake at the same level of ergonomics and ease of use. Test this patented unique Husqvarna development now.
Husqvarna T425.

Our new extra-light tree care saw T425 is very easy to handle thanks to its well-balanced body and high power-to-weight ratio. The extremely low weight and slim design make them perfect to use for olive and fruit tree care. With only 3 kg it can easily be carried and used in a day of harvesting and pruning olive- and fruit trees for optimal output of your trees.

25.4 cm³, 1.0 kW/1.3 hp, 3.0 kg, chain pitch 1/4 and 3/8”, rec. bar length 10”

Husqvarna T435.

This completely new T435 is low in weight and slim. But the T435 is additionally equipped with our new X-TORQ® engine technology, which increases power at lower rpms, with up to 20 % less fuel consumption, compared to our older models. This gives more efficiency when cutting and also saves money in the typical usage with olive and fruit trees.

35.2 cm³, 1.5 kW/2.0 hp, 3.4 kg, hain pitch 3/8”, rec. bar length 12–14”

T425/T435 Teardrop design

Low weight, teardrop-shaped saw body and flat underside make the saw easy to manoeuvre - even in tight grown olive trees.

440 e-series

The e-series is equipped with Smart Start, fuel pump and Auto return stop switch for very easy starting. Easier handling with tool-less chain tensioner guarantees efficient and easy work.

Tired of raking the olives?
Let the air force do the job.

**Husqvarna 380BTS.**
Husqvarna 380BTS is a powerful back pack blower with tube mounted throttle control. Large air flow and high air speed are provided by an efficient fan design together with the powerful X-TORQ® engine. Giving the ideal machine for work with olives. The harness has wide shoulder straps and hip belt for best ergonomics.

71.9 cm³, X-TORQ®, blow capacity 25.9 / 19.4 m³/min, 13.2 kg

**Husqvarna 350BT.**
The Husqvarna 350BT is a tough blower in the popular and easy-to-handle 50 cc mid-size range featuring a new, powerful X-TORQ® engine. The harness and controls are ergonomically designed for high capacity and ease of use.

50.2 cm³, X-TORQ®, blow capacity 19.6 / 14.0 m³/min, 10.2 kg

**Husqvarna 370BTS.**
Husqvarna 370BTS is a powerful back pack blower with tube mounted throttle control. Large air flow and high air speed are provided by an efficient fan design together with the powerful X-TORQ® engine. Commercial grade air filter gives long operating time and trouble free use specially in the typical dust conditions of olive harvesting.

64.9 cm³, X-TORQ®, blow capacity 21.0 / 16.0 m³/min, 12.0 kg

**Husqvarna 356BTx.**
The most silent Husqvarna backpack blower is the choice for typical farmer blower needs. They are famous for their performance and reliability plus the outstanding ergonomics and comfortable harnesses for long use. The 356BTX is equipped with the specially designed Husqvarnas low noise engine.

51.7 cm³, X-TORQ®, blow capacity 21.7 / 13.4 m³/min, 10.2 kg
**Husqvarna 327P4.**

Reach, balance and performance for olive and fruit tree care achieved through smart technological solutions, outstanding ergonomics and high durability.

24.5 cm³, 0.9 kW/1.2 hp, E-TECH II, shaft length 175 cm, 5.4 kg, chain pitch 3/8”, rec. bar length 12”

**Husqvarna 327P5x.**

Highest reach, balance and performance for olive and fruit tree care achieved through smart technological solutions, outstanding ergonomics and high durability. The Husqvarna 327P5x also features a detachable shaft that facilitates easy transport and storage.

24.5 cm³, 0.9 kW/1.2 hp, E-TECH II, shaft length 275 cm, 6.4 kg, chain pitch 3/8”, rec. bar length 12”

**Husqvarna 323 RII.**
A lightweight brushcutter for long, speedy work shifts equipped with our E-TECH® II engine. Suitable for working in farms, olive plantations, gardens, etc. The ergonomic and comfortable double harness and the angled handlebars for quick adjustment provide a comfortable working position. Includes our Combi-guard as well as trimmer head T25 and grass blade 255-4.
24.5 cm³, 0.9 kW/1.2 hp, E-tech II, 5.1 kg

**Husqvarna 333R.**
34.6 cm³, 1.6 kW/2.2 hp, 6.1 kg

**Husqvarna 241R.**
This professional and robust brushcutter is the true workhorse for farmer use. It represents a rugged, but slightly less sophisticated, design that allows a little higher vibrations, emissions and weight. But with no compromises when quality is concerned. If you seek trouble free operation and long lasting performance year after year, this is the machine for you.
40.3 cm³, 1.4 kW/1.9 hp, E-TECH, 6.5 kg

**Husqvarna 343R/343FR.**
Professional brushcutter with very high performance and power, long lifetime, sensational ergonomics and manoeuvrability. Delivered with our exclusive Trio-Balance harness for optimal use in farming and cutting bushes and cleaning in olive tree areas.
45.0 cm³, 2.0 kW/2.7 hp, 8.2 kg

If you have a job to do, we have the accessories for you.

COMBI CAN.
Our Combi can holds 6 litres of petrol and 2.5 litres of oil. The fuel container is fitted with an efficient overfill protection. When the tank is full, the flow is cut off automatically and you can lift up the can without spilling. The fuel container can be separated from the oil container. Between the cans there is a space for files and other tools. Approved in accordance with UN norms.
Art.No. 505 69 80-00

PETROL CAN GREEN.
Green petrol can, specially adapted for lawnmowers and cars with catalytic converters. Capacity: 6 litres. Approved by the Swedish National Testing and Research Institute in accordance with UN norms.
Art.No. 505 69 80-40

TWO STROKE OIL.
High-quality semisynthetic oil for high-performance engines and demanding conditions. For superior lubrication of bearings and cylinders, and a reduced engine temperature. Recommended for top-performing chain saws, grass and brushcutters. Fills the requirements of JASO FB/ISO EGB and Rotax 253 snowmobile test.
XP® oil, 1 Liter, dosage-bottle
Art.No. 544 45 01-02
Low Smoke oil, 1 Liter, dosage-bottle
Art.No 544 45 02-02

ACCESSORIES.

COMBI CAN.

PETROL CAN GREEN.

TWO STROKE OIL.
**PROTECTIVE TROUSERS.**
Waist trouser with saw protection made of 100% heavy-duty polyester in front and 100% knitted polyester in back, which provides good ventilation. Two front pockets, two back pockets and elastic waist. Buttons for suspenders and rule pocket on right leg. EuroTested, meet the requirements of EN 381 and Class 1, 20 m/s. Style A.
*Art.No. 504 10 15-xx*

**FOREST JACKET, FUNCTIONAL.**
Forest jacket with front and upper part of back made of water repellent 100% micro polyester. Front of arms and backside of arms of 100% polyester. Lower part of sleeves is made of Cordura nylon. Four pockets in front, one with inside pocket for mobile phone. Zippered openings under the arms for ventilation. Arms have new cut for improved movement. Yoke with mesh lining for added ventilation, and corduroy collar for added comfort.
*Art.No. 304 10 24-xx*

**PROTECTIVE HELMET.**
Robust and effective helmet with comfortable six point interior. Can be adjusted vertically, complete with visor and hearing protectors.
*Art.No. 505 67 55-15*

**HEARING PROTECTION.**
With and without mesh visor. Lightweight, flexibe padded headband. 20% adjustment of pressure. Meets requirements of EN 352-1.
*Art.Nr. 505 66 53-04
Art.Nr. 505 64 53-58*

**SPANDEX – 5 FINGER GLOVES.**
*Art.Nr. 504 64 25-xx (9/10/12)*

**COMFORT GLOVES.**
*Art.Nr. 505 64 20-xx*

**PROTECTIVE GLASSES.**
Protective glasses featuring non-scratch, grey tinted lenses with UV protection for improved vision in sunny conditions. Frames can be extended and lenses angled. Approved as per EN 166 and Ansi Z87+.
*Clear X  Art.No. 544 96 37-01
Sun X  Art.No. 544 96 37-03*

**LEATHER BOOTS.**
Improved design for better durability. Boots made of polyurethane-treated leather. With reinforced sole, and upper made of a stiffer material for greater comfort and stability.
*Art.No. 544 96 48-xx
Art.No. 544 21 19-xx*

**TELESCOPIC SHAFT.**
With simple length adjustment from 2.5–5 m.
*Art.No. 502 42 73-01*

**LIMBING SAW.** (for shaft)
Curved blade with hook at tip
*Art.No. 505 69 45-76*
Drawing on more than 300 years of engineering solutions for the care of forest, parks and gardens. With an optimal combination of professional performance and user focus, Husqvarna products give you efficiency, satisfaction and quality results.
