SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1. Product identifier

Trade name or designation of the mixture
Husqvarna XP Power 2

Registration number
- None.

Synonyms
589 22 76-01 (1L), 581 48 48-02 (5L), 583 95 29-02 (25L), 583 95 29-03 (60L), 583 95 29-04 (200L)

Product code
25-April-2016

Issue date
01

Version number
-

Revision date
-

Supersedes date
-

1.2. Relevant identified uses of the substance or mixture and uses advised against

Identified uses
Petrol for 2-stroke engine.

Uses advised against
None known.

1.3. Details of the supplier of the safety data sheet

Manufacturer/Supplier
Husqvarna AB

Address
Drottninggatan 2

Telephone
+46 (0)36-14 65 00

Contact person
Accessory Department

e-mail
sds.info@husqvarna.se

1.4. Emergency telephone number
+1-760-476-3961 (Access code 333721)

SECTION 2: Hazards identification

2.1. Classification of the substance or mixture

The mixture has been assessed and/or tested for its physical, health and environmental hazards and the following classification applies.

Classification according to Regulation (EC) No 1272/2008 as amended

Physical hazards
Flammable liquids
Category 1
H224 - Extremely flammable liquid and vapour.

Health hazards
Skin corrosion/irritation
Category 2
H315 - Causes skin irritation.

Specific target organ toxicity - single exposure
Category 3 narcotic effects
H336 - May cause drowsiness or dizziness.

Aspiration hazard
Category 1
H304 - May be fatal if swallowed and enters airways.

Environmental hazards
Hazardous to the aquatic environment, long-term aquatic hazard
Category 4
H413 - May cause long lasting harmful effects to aquatic life.

Hazard summary
May be ignited by heat, sparks or flames. May be fatal if swallowed and enters airways. May cause drowsiness and dizziness. Causes skin irritation. Dangerous for the environment if discharged into watercourses.

2.2. Label elements

Label according to Regulation (EC) No. 1272/2008 as amended

Contains:
Low boiling point naphtha (Gasoline)

Signal word
Danger

Hazard statements

Material name: Husqvarna XP Power 2 - Husqvarna - 589 22 76-01
589 22 76-01 (1L), 581 48 48-02 (5L), 583 95 29-02 (25L), 583 95 29-03 (60L), 583 95 29-04 (200L) Version #: 01 Revision date: - Issue date: 25/4/16
H224 Extremely flammable liquid and vapour.
H304 May be fatal if swallowed and enters airways.
H315 Causes skin irritation.
H336 May cause drowsiness or dizziness.
H413 May cause long lasting harmful effects to aquatic life.

Precautionary statements

Prevention

P102 Keep out of reach of children.
P210 Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking.
P233 Keep container tightly closed.
P240 Ground/bond container and receiving equipment.
P241 Use explosion-proof electrical/ventilating/lighting equipment.
P242 Use only non-sparking tools.
P243 Take precautionary measures against static discharge.
P301 + P310 IF SWALLOWED: Immediately call a POISON CENTER/doctor.
P303 + P361 + P353 IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower.
P304 + P340 IF INHALED: Remove person to fresh air and keep comfortable for breathing.
P305 + P333 Call a POISON CENTER/doctor if you feel unwell.
P312 Call a POISON CENTER/doctor if you feel unwell.
P332 + P313 If skin irritation occurs: Get medical advice/attention.
P362 + P364 Take off contaminated clothing and wash it before reuse.
P400 + P233 Store in a well-ventilated place. Keep container tightly closed.
P405 Store locked up.
P405 Store locked up.
P501 Dispose of contents/container in accordance with local/regional/national/international regulations.

Response

P301 + P310 IF SWALLOWED: Immediately call a POISON CENTER/doctor.
P331 Do NOT induce vomiting.
P303 + P361 + P353 IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower.
P304 + P340 IF INHALED: Remove person to fresh air and keep comfortable for breathing.
P312 Call a POISON CENTER/doctor if you feel unwell.
P322 + P313 If skin irritation occurs: Get medical advice/attention.
P362 + P364 Take off contaminated clothing and wash it before reuse.
P370 + P378 In case of fire: Use appropriate media to extinguish.

Storage

P403 + P233 Store in a well-ventilated place. Keep container tightly closed.
P235 Keep cool.
P405 Store locked up.

Disposal

P501 Dispose of contents/container in accordance with local/regional/national/international regulations.

Supplemental label information

Not a PBT or vPvB substance or mixture.

SECTION 3: Composition/information on ingredients

3.2 Mixtures

General information

Chemical name  %  CAS-No. / EC No.  REACH Registration No.  INDEX No.  Notes
Naphtha (petroleum), full-range alkylate, butane-contg.  67 - 74  68527-27-5  01-2119471477-29-0018  649-282-00-2
Hydrocarbons, C >= 5, C5-6-Rich; Low boiling point naphtha - unspecified  26 - 33  68476-50-6  01-2119489866-14-0003  649-401-00-8
Fully synthetic 2-stroke oil  2  -  -  -

Classification:

Flam. Liq. 1; H224, Asp. Tox. 1; H304, Skin Irrit. 2; H315, STOT SE 3; H336, Aquatic Chronic 2; H411

List of abbreviations and symbols that may be used above

All concentrations are in percent by weight unless ingredient is a gas. Gas concentrations are in percent by volume. The product is an alkylate gasoline mixed with a fully synthetic 2-stroke oil. The following compounds may be present: Benzene (CAS 71-43-2) <0.1% v/v; n-hexane (CAS 110-54-3) <0.5% v/v; aromatic hydrocarbons <0.5% v/v.

Composition comments

The full text for all H-statements is displayed in section 16.
SECTION 4: First aid measures

General information
Take off all contaminated clothing immediately. Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves. Wash contaminated clothing before reuse.

4.1. Description of first aid measures

Inhalation
Remove victim to fresh air and keep at rest in a position comfortable for breathing. Call a POISON CENTRE or doctor/physician if you feel unwell.

Skin contact
Take off immediately all contaminated clothing. Rinse skin with water/shower. If skin irritation occurs: Get medical advice/attention. Wash contaminated clothing before reuse.

Eye contact
Immediately flush eyes with plenty of water for at least 15 minutes. Remove contact lenses, if present and easy to do. Get medical attention if irritation develops and persists.

Ingestion
Call a physician or poison control centre immediately. Rinse mouth. Do not induce vomiting. If vomiting occurs, keep head low so that stomach content doesn't get into the lungs.

4.2. Most important symptoms and effects, both acute and delayed
Aspiration may cause pulmonary oedema and pneumonitis. May cause drowsiness and dizziness. Headache. Nausea, vomiting. Direct contact with eyes may cause temporary irritation. Skin irritation. May cause redness and pain.

4.3. Indication of any immediate medical attention and special treatment needed
Provide general supportive measures and treat symptomatically. Thermal burns: Flush with water immediately. While flushing, remove clothes which do not adhere to affected area. Call an ambulance. Continue flushing during transport to hospital. Keep victim under observation. Symptoms may be delayed.

SECTION 5: Firefighting measures

General fire hazards
Extremely flammable liquid and vapour.

5.1. Extinguishing media
Suitable extinguishing media
Water fog. Foam. Dry chemical powder. Carbon dioxide (CO2).

Unsuitable extinguishing media
Do not use water jet as an extinguisher, as this will spread the fire.

5.2. Special hazards arising from the substance or mixture
Vapours may form explosive mixtures with air. Vapours may travel considerable distance to a source of ignition and flash back. During fire, gases hazardous to health may be formed.

5.3. Advice for firefighters
Self-contained breathing apparatus and full protective clothing must be worn in case of fire.

Special protective equipment for firefighters
In case of fire and/or explosion do not breathe fumes. Move containers from fire area if you can do so without risk.

Specific fire fighting procedures
Use standard firefighting procedures and consider the hazards of other involved materials.

SECTION 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

For non-emergency personnel
Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Eliminate all ignition sources (no smoking, flares, sparks, or flames in immediate area). Wear appropriate protective equipment and clothing during clean-up. Avoid breathing mist or vapour. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ventilate closed spaces before entering them. Local authorities should be advised if significant spillages cannot be contained.

For emergency responders
Keep unnecessary personnel away. Wear appropriate protective equipment and clothing during clean-up.

6.2. Environmental precautions
Prevent further leakage or spillage if safe to do so. Avoid discharge into drains, water courses or onto the ground. Inform appropriate managerial or supervisory personnel of all environmental releases.

6.3. Methods and material for containment and cleaning up
Eliminate all ignition sources (no smoking, flares, sparks, or flames in immediate area). Keep combustibles (wood, paper, oil etc) away from spilled material. Take precautionary measures against static discharge. Use only non-sparking tools. Prevent product from entering drains.

Large Spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Use a non-combustible material like vermiculite, sand or earth to soak up the product and place into a container for later disposal. Following product recovery, flush area with water.

Small Spills: Absorb with earth, sand or other non-combustible material and transfer to containers for later disposal. Clean surface thoroughly to remove residual contamination.

Never return spills to original containers for re-use.

6.4. Reference to other sections
For personal protection, see section 8 of the SDS. For waste disposal, see section 13 of the SDS.
SECTION 7: Handling and storage

7.1. Precautions for safe handling
Do not handle, store or open near an open flame, sources of heat or sources of ignition. Protect material from direct sunlight. When using do not smoke. Explosion-proof general and local exhaust ventilation. Take precautionary measures against static discharges. All equipment used when handling the product must be grounded. Use non-sparking tools and explosion-proof equipment. Avoid breathing mist or vapour. Avoid contact with eyes, skin, and clothing. Wear appropriate personal protective equipment. Wash hands thoroughly after handling. Avoid release to the environment. Observe good industrial hygiene practices.

7.2. Conditions for safe storage, including any incompatibilities
Store locked up. Keep away from heat, sparks and open flame. Prevent electrostatic charge build-up by using common bonding and grounding techniques. Store in a cool, dry place out of direct sunlight. Store in original tightly closed container. Store in a well-ventilated place. Keep in an area equipped with sprinklers. Store away from incompatible materials (see section 10 of the SDS)

7.3. Specific end use(s)
Petrol for 2-stroke engine.

SECTION 8: Exposure controls/personal protection

8.1. Control parameters

Occupational exposure limits No exposure limits noted for ingredient(s).

Biological limit values No biological exposure limits noted for the ingredient(s).

Recommended monitoring procedures Follow standard monitoring procedures.

Derived no-effect level (DNEL)

Predicted no effect concentrations (PNECs) Not available.

8.2. Exposure controls

Appropriate engineering controls
Explosion-proof general and local exhaust ventilation. Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. Eye wash facilities and emergency shower must be available when handling this product.

Individual protection measures, such as personal protective equipment

General information Use personal protective equipment as required. Personal protection equipment should be chosen according to the CEN standards and in discussion with the supplier of the personal protective equipment.

Eye/face protection
Chemical respirator with organic vapour cartridge and full facepiece.

Skin protection
- Hand protection Wear appropriate chemical resistant gloves. Select suitable chemical resistant protective gloves (EN 374) with a protective index 6 (>480 min permeation time). Polyvinyl alcohol or nitrile-butyl rubber gloves. Suitable gloves can be recommended by the glove supplier.

- Other Wear appropriate chemical resistant clothing.

Respiratory protection
Chemical respirator with organic vapour cartridge and full facepiece.

Thermal hazards
Wear appropriate thermal protective clothing, when necessary.

Hygiene measures
When using do not smoke. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.

Environmental exposure controls
Inform appropriate managerial or supervisory personnel of all environmental releases.
SECTION 9: Physical and chemical properties

9.1. Information on basic physical and chemical properties

Appearance
- Physical state: Liquid.
- Form: Mobile. Liquid.
- Colour: Blue.
- Odour threshold: Not available.
- pH: Not available.
- Melting point/freezing point: Not available.
- Initial boiling point and boiling range: 30 - 200 °C (86 - 392 °F)
- Flash point: < 0 °C (< 32.0 °F)
- Evaporation rate: Not available.
- Flammability (solid, gas): Not applicable.
- Upper/lower flammability or explosive limits:
  - Flammability limit - lower (%): 7.6 %
  - Flammability limit - upper (%): 1.4 %
- Vapour pressure: 50 - 65 kPa (38 °C)
- Vapour density: > 3 Air = 1
- Relative density: 0.68 - 0.72 (15.4 °C)
- Solubility(ies): < 50 µg/l (20 °C)
- Partition coefficient (n-octanol/water): Log Kow: >3
- Auto-ignition temperature: 400 °C (752 °F) approx.
- Decomposition temperature: Not available.
- Viscosity: < 1 mm²/s (kinematic) (38 °C)
- Explosive properties: Not explosive.
- Oxidising properties: Not oxidising. Does not meet the criteria as an oxidizer.

9.2. Other information

SECTION 10: Stability and reactivity

10.1. Reactivity
- The product is stable and non-reactive under normal conditions of use, storage and transport.

10.2. Chemical stability
- Material is stable under normal conditions.

10.3. Possibility of hazardous reactions
- No dangerous reaction known under conditions of normal use.

10.4. Conditions to avoid
- Avoid heat, sparks, open flames and other ignition sources. Avoid temperatures exceeding the flash point. Contact with incompatible materials.

10.5. Incompatible materials
- Strong oxidising agents.

10.6. Hazardous decomposition products
- No hazardous decomposition products are known.

SECTION 11: Toxicological information

General information
- Occupational exposure to the substance or mixture may cause adverse effects.

Information on likely routes of exposure
- Skin contact: Causes skin irritation.
- Eye contact: Direct contact with eyes may cause temporary irritation.
- Ingestion: Droplets of the product aspirated into the lungs through ingestion or vomiting may cause a serious chemical pneumonia.

Symptoms

11.1. Information on toxicological effects

Acute toxicity
- May be fatal if swallowed and enters airways. Narcotic effects.
### Components

**Test results**

<table>
<thead>
<tr>

#### Acute

**Dermal**

- **LD50** Rabbit: > 2000 mg/kg

**Inhalation**

- **LC50** Rat: > 5.2 mg/L

**Oral**

- **LD50** Rat: > 5000 mg/kg

#### Skin corrosion/irritation

Causes skin irritation.

#### Serious eye damage/eye irritation

Direct contact with eyes may cause temporary irritation.

#### Respiratory sensitisation

Due to partial or complete lack of data the classification is not possible.

#### Skin sensitisation

Based on available data, the classification criteria are not met.

#### Germ cell mutagenicity

Based on available data, the classification criteria are not met.

#### Carcinogenicity

Based on available data, the classification criteria are not met.

#### Reproductive toxicity

Based on available data, the classification criteria are not met.

#### Specific target organ toxicity - single exposure

May cause drowsiness and dizziness.

#### Specific target organ toxicity - repeated exposure

Based on available data, the classification criteria are not met.

#### Aspiration hazard

May be fatal if swallowed and enters airways.

#### Mixture versus substance information

No information available.

#### Other information

No additional adverse health effects noted.

### SECTION 12: Ecological information

#### 12.1. Toxicity

May cause long lasting harmful effects to aquatic life.

#### 12.2. Persistence and degradability

Expected to be inherently biodegradable.

#### 12.3. Bioaccumulative potential

**Partition coefficient**

- **n-octanol/water (log Kow)**: Husqvarna XP Power 2 > 3 (Log Kow)

**Bioconcentration factor (BCF)**: Not available.

#### 12.4. Mobility in soil

No data available.

#### 12.5. Results of PBT and vPvB assessment

Not a PBT or vPvB substance or mixture.

#### 12.6. Other adverse effects

The product contains volatile substances, which may spread in the atmosphere.

### SECTION 13: Disposal considerations

#### 13.1. Waste treatment methods

**Residual waste**

Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).
Contaminated packaging
Since emptied containers may retain product residue, follow label warnings even after container is emptied. Empty containers should be taken to an approved waste handling site for recycling or disposal.

EU waste code
The Waste code should be assigned in discussion between the user, the producer and the waste disposal company.

Disposal methods/information
Collect and reclaim or dispose in sealed containers at licensed waste disposal site. Do not allow this material to drain into sewers/water supplies. Do not contaminate ponds, waterways or ditches with chemical or used container. Dispose of contents/container in accordance with local/regional/national/international regulations.

Special precautions
Dispose in accordance with all applicable regulations.

Not applicable.

SECTION 15: Regulatory information

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

EU regulations
Regulation (EC) No. 1005/2009 on substances that deplete the ozone layer, Annex I and II, as amended
Not listed.
Not listed.
Regulation (EU) No. 649/2012 concerning the export and import of dangerous chemicals, Annex I, Part 1 as amended
Not listed.
Regulation (EU) No. 649/2012 concerning the export and import of dangerous chemicals, Annex I, Part 2 as amended
Not listed.
Regulation (EU) No. 649/2012 concerning the export and import of dangerous chemicals, Annex I, Part 3 as amended
Not listed.
Regulation (EU) No. 649/2012 concerning the export and import of dangerous chemicals, Annex V as amended
Not listed.
Not listed.
Regulation (EC) No. 1907/2006, REACH Article 59(10) Candidate List as currently published by ECHA
Not listed.

Authorisations
Regulation (EC) No. 1907/2006, REACH Annex XIV Substances subject to authorization, as amended
Not listed.

Restrictions on use
Regulation (EC) No. 1907/2006, REACH Annex XVII Substances subject to restriction on marketing and use as amended
Not listed.
Directive 2004/37/EC: on the protection of workers from the risks related to exposure to carcinogens and mutagens at work, as amended.
Not listed.
Directive 92/85/EEC: on the safety and health of pregnant workers and workers who have recently given birth or are breastfeeding, as amended
Not listed.

Other EU regulations
Directive 2012/18/EU on major accident hazards involving dangerous substances, as amended
Not listed.
Directive 98/24/EC on the protection of the health and safety of workers from the risks related to chemical agents at work, as amended
Hydrocarbons, C >= 5, C5-6-Rich; Low boiling point naphtha - unspecified (CAS 68476-50-6)
Naphtha (petroleum), full-range alkylate, butane-contg. (CAS 68527-27-5)
Directive 94/33/EC on the protection of young people at work, as amended
Hydrocarbons, C >= 5, C5-6-Rich; Low boiling point naphtha - unspecified (CAS 68476-50-6)
Naphtha (petroleum), full-range alkylate, butane-contg. (CAS 68527-27-5)

Other regulations
The product is classified and labelled in accordance with Regulation (EC) 1272/2008 (CLP Regulation) as amended. This Safety Data Sheet complies with the requirements of Regulation (EC) No 1907/2006, as amended.
96/82/EC (Seveso II) Directive; Part 2 (Classified Substances) - Extremely Flammable
National regulations

Follow national regulation for work with chemical agents.

Young people under 18 years old are not allowed to work with this product according to EU Directive 94/33/EC on the protection of young people at work, as amended.

15.2. Chemical safety assessment

Chemical Safety Assessment has been carried out.

SECTION 16: Other information

List of abbreviations

PBT: Persistent, bioaccumulative and toxic.

vPvB: Very Persistent and very Bioaccumulative.

EC50: Effective Concentration, 50%.

NOEC: No observed effect concentration.

CEN: European Committee for Standardisation.

References

ECHA registered substances database.

Information on evaluation method leading to the classification of mixture

The classification for health and environmental hazards is derived by a combination of calculation methods and test data, if available.

Full text of any H-statements not written out in full under Sections 2 to 15

H224 Extremely flammable liquid and vapour.

H304 May be fatal if swallowed and enters airways.

H315 Causes skin irritation.

H336 May cause drowsiness or dizziness.

H411 Toxic to aquatic life with long lasting effects.

Training information

Follow training instructions when handling this material.

Disclaimer

Husqvarna AB cannot anticipate all conditions under which this information and its product, or the products of other manufacturers in combination with its product, may be used. It is the user’s responsibility to ensure safe conditions for handling, storage and disposal of the product, and to assume liability for loss, injury, damage or expense due to improper use. The information in the sheet was written based on the best knowledge and experience currently available.
